

BULLETIN OF THE MARINE GEOLOGY

Volume 24, No. 2

December 2009

ISSN : 1410-6175

The granite from Klabat Bay, Bangka Island (By: Edlar Usman)

- BIOGENIC GAS IN DELTAIC DEPOSITION ENVIRONMENT IN KAPUAS RIVER, WEST KALIMANTAN AND ITS UTILIZATIONS FOR LOCAL COMMUNITY**
By : Hananto Kurnio and Yudi Darlan 55-63
- THE CHARACTERISTIC OF RECENT SEDIMENT IN SEGARA ANAKAN LAGOON, CIAMIS REGENCY, WEST JAVA**
By : I Wayan Lugra and Hananto Kurnio 65-78
- DIAGENETIC FEATURES OF PALEO LAGOONAL REEF OF TACIPI AREA, SOUTH CELEBES**
By : Andri Slamet Subandrio 79-87
- SEDIMENTATION AND DEPOSITIONAL ENVIRONMENT OF BASED ON SEISMIC AND DRILLING CORE ANALYSES IN CIMANUK DELTA INDRAMAYU, WEST JAWA**
By : I Nyoman Astawa 89-97
- PALYNOLOGY OF TÖGI NDRAWA CAVE, COASTAL AREA OF NIAS ISLAND, NORTH SUMATERA**
By : A.A. Polhaupessy 99-115

PREFACE

This Volume 24, Number 2 on the year 2009, can be published five choice papers from various institutions on earth sciences. As according to previous planning, the papers topics in these number: Biogenic gas in deltaic deposition environment in Kapuas River, West Kalimantan and its utilizations for local community; Prediction of sediment source based on smear slide and major element contents in Segara Anakan lagoon, Ciamis Regency, West Java; Diagenetic features of paleo lagoonal reef of Tacipi area, South Celebes; Sedimentation and depositional environment based on seismic and drilling core analyses in Cimanuk Delta Indramayu, West Java; Palynology of Tögi Ndrawa Cave, coastal area of Nias Island, North Sumatera

Fifth papers to give some informations on earth sciences aspect and application to development of energy and mineral resources sector. The papers that published in this number pass the selection and editing process. The editorial board hopes the papers that presented in this number is these can give benefit in development of earth sciences and marine geology in Indonesia.

We have said thank to all contributors that help in this bulletin publication.
