PREFACE

This year accreditation of Bulletin of Marine Geology dues date and the evaluation process for such certification already proposed to Ministry of Research and Technology / National Agency for Research and Innovation (Menristek/BRIN). All documents required have been fulfilled and hopefully by the end of this year the accreditation would be successful. Thanks to Editorial Boards, Subdivision of Information and Division of Cooperation and Information, Marine Geological Institute of Indonesia (MGI); for this achievement. Much appreciate.

The 2020 year second edition presents the first paper Study of Granitoid Distribution at Toboali Waters, Bangka Belitung Province: Seismic data interpretation approach by MGI in collaboration with Geological Engineering Faculty University of Padjadjaran. The second paper Estuary Changes of Cipunagara And Cimanuk River Using Landsat Imagery Spatial Analysis by LIPI Geotechnology. The third paper Application of Spectral Decomposition and RGB Blending for Delineation of “S” Channel at Asri Basin by MGI in collaboration with Geological Engineering Faculty University of Padjadjaran. The fourth paper Tectonics of Volcanogenic Massive Sulphide (VMS) Deposits at Flores Back Arc Basin by MGI, and the fifth paper Simple Statistical Testing on Existing Data of Core 39 KL SO189/2 to Reveal its Correlation Towards Sea Surface Temperature Variation by Agency for the Assessment and Application of Technology (BPPT). The editors appreciate the valuable contribution of the authors for this edition.
